Attn: Mr. Woody Cottner

Subject: Supplemental Type Certificate ST01726WI – Installation of a Tailcone Cooling Axial Fan and Ducting

Reference: FAA Application Letter, dated February 3, 2014

This is in response to the subject application letter requesting Transport Canada approval of the subject STC.

In accordance with our current policy associated with the review of foreign STCs, some STCs applicable to certain categories of aircraft may be accepted solely on the basis of their foreign certification, and do not require the issue of a corresponding certificate by Transport Canada. The subject STC falls within these criteria.

This STC will be entered in the national index of STCs that have been reviewed and accepted by Transport Canada for installation on Canadian-registered aeronautical products.

This letter confirms formal acceptance of FAA STC ST01726WI by Transport Canada.

Best regards,

Scott W. Wales
